We Provide Shading Solutions

Our sales teams give answers relevant to your needs, while our products give lasting service. We're conscientious about our work, so that our customers won't need to be.

Acacia Corporation established itself in 1943 as a fabricator and supplier of quality commercial window coverings. In our third generation of management, we continue to stay on the leading edge of technological developments for our industry.

We offer an extensive range of durable shading materials, secured to either manual or motorized roll systems, incorporating a variety of sophisticated control options, all backed by our manufacturers warranty. In addition to roller shading applications we represent the top alternative shading suppliers. These major suppliers of horizontal and vertical slat blinds, as well as cellular pleated materials, produce products that synchronize with our motorization and mounting components.

The benefits of our product line include:

- Glare Free Views & Room Darkening Options
- Efficient Control of Energy Absorption & Reflection
- Refined Operating Systems for Both Single & Group Shades
- Complete Custom Sizing

Allow us to join your solutions team, and supply your projects with efficient, long lasting, environmentally enhancing, window shading systems.
